Date Mailed

November 22, 2004

Patent No. : 6,775,899
Inventor : Michinori TOMOMATSU et al.
Patent Issued : August 21, 2006
Title : METHOD FOR INSPECTING PRINTING STATE AND SUBSTRATE

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule(s) 1.322.

Inspection of the application for the patent reveals, however, that in connection with the alleged error pertaining to column 8, claim 13, line 1 of which applicant has referred is not warranted since the change from "circuit board" to --substrate-- is not correction of typographical error and is therefore considered printed in accordance with the record in the Patent and Trademark Office.

In view of the foregoing applicants request in this matter is hereby denied, however, a certificate of correction will issue to correct the remaining errors noted in request. Any telephone inquiry concerning this communication should be directed to Ms. A. Green at (703) 308-9380 ext. 123.
